CAO Report

Chief Administrative Officer Ross Rawlusyk reviewed his CAO Report with Council. Highlights of his report included the following:

- He recently attended the 2013 FCM Annual Conference in Vancouver from May 30th to June 3rd. The sessions were all held in Canada Place. There were several interesting sessions, however, he felt the most important presentation was that of Denis Lebel, the Federal Minister of Transport, Infrastructure and Communications, who advised that the Federal Government will have the new Infrastructure Program ready for applications and promised that funding will be available for April of 2014. The Keynote address at the conference was from the Man in Motion, Rick Hansen, who was outstanding.
- The Summer Fun Program will begin on Tuesday, July 2nd and run through to August 21st. It will operate on Monday and Tuesday in Delia and in Morrin on Wednesday and Thursday. Kaci and Karissa Reid are presently planning and coordinating the activities for this program.
- The Starland County Summer Picnic and employee and councillor long service awards presentations will be held in Rowley on Friday, July 19th.
- Ross attended the Emerald Awards presentation on June 6th.

These awards are given to individuals or organizations that work to recognize, celebrate and inspire environmental excellence in Alberta. A record 123 nominations were received this year and he was proud to advise that he was nominated and made the cut to be one of 32 finalists for this recognition.

- On June 3rd, the CRTC issued a new wireless code that will make it easier for Canadians to understand their cell phone contracts. The new code allows users to terminate their wireless contract after 2 years without cancellation fees, even if they have signed on for a longer term; it caps extra data charges at \$50/month and international roaming charges at \$100/month to prevent bill shock; it allows users to return their cellphones within 15 days and specific usage limits if they are unhappy with the service; users can accept or decline changes to the key terms of a fixed-term contract; fees are also suspended for devices that are being repaired by the wireless provider; and the contracts must be written in plain language so the consumer can better understand the contract terms.
- The Public Interest Disclosure Act, or as it's better known, the Whistleblower Protection Act, came into force on June 1st. The new law gives all public sector employees the confidence and protection they require if they report a wrongdoing. Public sector bodies are required to appoint a designated officer within their organization to investigate and resolve complaints by employees who report violations of provincial or federal laws.
- The Province of Alberta announced that 24 communities around the province will soon have better access to primary health care as the next wave of Family Care Clinics (FCC) are implemented. In our area, a Family Care Clinic will be implemented in Three Hills.
- Alberta's Minimum Wage will increase by 2.1% on September 1st, 2013, representing an increase from \$9.74/hour to \$9.95/hour.
- On Wednesday of this week, we will be hosting the Morrin Grade 6 class and will be educating them about local government.
